About Your Hypnotherapy Session:

Your therapist will ask you to sit comfortably in a chair and close your eyes. They will then simply talk you into a very relaxed state. Your therapist will check that you are actually in a trance and ensure that you are comfortable with the experience.

Hypnosis is a pleasant, day-dreamy state. Your body will probably be very relaxed but you will be more focused and aware than you normally are. You are always in control and you will normally remember what happens during the session although it may feel a little like a dream.

Disclaimer:

Optimal Wellbeing Hypnotherapy is committed to offering consistent quality and professional hypnotherapy.
